STATEMENTS

STATEMENT BY MANAGEMENT

The Executive Board has today discussed and approved the annual report for Danish Microfinance Partners K/S for the financial year 1 January – 31 December 2023.

The annual report has been prepared in accordance with the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the limited partnership's assets, liabilities and financial position at 31 December 2023 and of the results of the limited partnership's operations for the financial year 1 January – 31 December 2023.

We believe that the Management commentary and the supplementary report in accordance with the Sustainable Financial Disclosure Regulation (EU) include a fair review of the affairs and conditions referred to therein.

We recommend the annual report 2023 for adoption at the annual general meeting.

Copenhagen, 10 July 2024

STATEMENTS

INDEPENDENT AUDITORS' REPORT

To the limited partners of Danish Microfinance Partners K/S

Opinion

We have audited the financial statements of Danish Microfinance Partners K/S for the financial year 1 January – 31 December 2023, which comprise accounting policies, income statement, balance sheet, statement of changes in equity and notes. The financial statements are prepared in accordance with the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the financial position of the Limited Partnership at 31 December 2023 and of the results of the Limited Partnership's operations for the financial year 1 January – 31 December 2023 in accordance with the Danish Financial Statements Act.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the financial statements" section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (IESBA Code) and the additional ethical requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code.

Management's responsibilities for the financial statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the Danish Financial Statements Act and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Limited Partnership's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Limited Partnership or to cease operations, or has no realistic alternative but to do so.

STATEMENTS

INDEPENDENT AUDITORS' REPORT

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance as to whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit conducted in accordance with ISAs and additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Limited Partnership's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Limited Partnership's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Limited Partnership to cease to continue as a going concern.

STATEMENTS

INDEPENDENT AUDITORS' REPORT

· Evaluate the overall presentation, structure and contents of the financial statements, including the note disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Statement on Management's commentary and other information in accordance with SFDR
Management is responsible for the Management's commentary, and other information in accordance with SFDR, hereafter referred to "other information".

Our opinion on the financial statements does not cover the Management's commentary or other information, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the Management's commentary as well as other information and, in doing so, consider whether the Management's commentary and other information is materially inconsistent with the financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether the Management's commentary provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that the Management's commentary and other information is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement of the Management's commentary or other information.

MANAGEMENT COMMENTARY

BUSINESS REVIEW

Danish Microfinance Partners K/S

The private equity fund Danish Microfinance Partners K/S (Danish Microfinance Partners) was established on 26 October 2010 as a limited partnership and is owned by The Investment Fund for Development Countries (IFU), Pension funds administered by PKA A/S (PKA) and Pensionskassen for Børne- og Ungdomspædagoger (PBU). The investors have entered into a limited partnership agreement (LPA).

Danish Microfinance Partners has a total capital commitment of DKK 401.3 million. The investment period ended in June 2015 and consequently, no investments will be made in new portfolio companies. The Fund has invested in six portfolio companies since inception, of which four investments have been exited. As of year-end 2023, Danish Microfinance Partners has two active investments.

Investment policy and strategy in Danish Microfinance Partners

The Fund has invested in well-established financial inclusion institutions with the operational infrastructure and management skills to become a commercial, regulated bank. These institutions are characterised by having strong governance, highly qualified management and attractive growth opportunities based on a well-balanced strategy of social impact and financial return.

The financial inclusion institutions offer a range of financial products and services depending on country, market and regulations. All of them provide micro-credits which are small loans with short maturities. Other services are saving and insurance products. Loans are granted to groups or individual clients almost exclusively for income-generating activities. The customers are low-income groups, with limited or no access to financial services in traditional commercial banks.

The Fund has invested in financial inclusion institutions in Latin America, Asia and Africa and the investments are both directly with equity instruments and indirectly via funds. The Fund is an active minority investor, taking a 5–15% stake and appointing a board member in the financial inclusion institution. Investments are mainly in unquoted companies; however, investments in listed companies are possible as well.

Danish Microfinance Partners prioritises long-term value creation and lays decisive emphasis upon each individual investment being supported by a sound and well-advised strategy and business plan. The Fund closely monitors investments to ensure that their value potential is realised and assesses exit opportunities on a continuous basis.

Sustainability Policy

The Sustainability Policy outlines the Fund's commitment and approach to promoting a positive environmental, social and governance development. We believe that supporting

MANAGEMENT COMMENTARY

BUSINESS REVIEW

responsible business conduct is part of the Fund's value creation to investments and generates a positive development. This includes, among other things, access to affordable financial services, outreach, gender equality, client protection, job creation and community initiatives, ensuring good corporate governance and clients' protection against climate change. Investing in financial institutions with a strong social mission contributes to the improvement of clients' economic development and livelihood by providing access to formal and fair financial services. Also, financial inclusion is imperative for giving people access to basic needs such as education, skill training, healthcare, clean water, sanitation facilities and clean energy.

The Fund considers sustainability as an integrated part of the overall framework for responsible investment. The Fund integrates sustainability risks into the Fund's investment decisions in accordance with Article 6 of the EU Sustainable Finance Disclosure Regulation (SFDR). The Fund is classified in accordance with Article 8 of SFDR and promotes, among other characteristics, environmental and social characteristics but does not have sustainable investment as its objective. This annual report includes a supplementary report in accordance with SFDR (EU), to which we refer for further information.

The Sustainability Policy of the Fund considers the provisions laid down in international ESG standards. These include the Client Protection Principles, the Universal Standards for Social Performance Management of the Social Performance Task Force, the Principles for Investors in Inclusive Finance as well as IFC's Exclusion List. Through earnest implementation of its Sustainability Policy, The Fund strives to achieve its vision of generating a sound financial return as well as positive ESG development for its investors.

Danish Microfinance Partners organisation

The advisory team consists of one Managing Partner for Financial Inclusion (FI), the Executive Board of Fondsmæglerselskabet Maj Invest A/S (Maj Invest), two partners, an executive advisor, one investment director, one investment manager, one senior sustainability manager, three associates, two analysts as well as three back-office staff involved in finance, legal matters and administrative duties.

Ownership

Danish Microfinance Partners is owned by IFU, PKA and PBU, holding a stake of 99.7%. The Managing Partner for Financial Inclusion and one legal back-office employee involved in investments as well as one of the external members of the Fund's Investment Committee have all invested as Special Limited Partners in Danish Microfinance Partners. Any profits earned by such Special Limited Partners are subject to tax under current Danish and local tax rules. The Special Limited Partners do not pay management fees and partnership formation costs to the Fund.

Legal structure

Danish Microfinance Partners is a Danish limited partnership with a Danish private limited company as general partner. The General Partner is managed by an executive board consisting of the Managing Partner for Financial Inclusion and a Partner in Maj Invest Equity. The General Partner is a subsidiary of the former manager, Danish Microfinance Partners Management ApS, which is owned by Maj Invest Holding A/S (Maj Invest Holding).

Legal structure of Danish Microfinance Partners

MANAGEMENT COMMENTARY

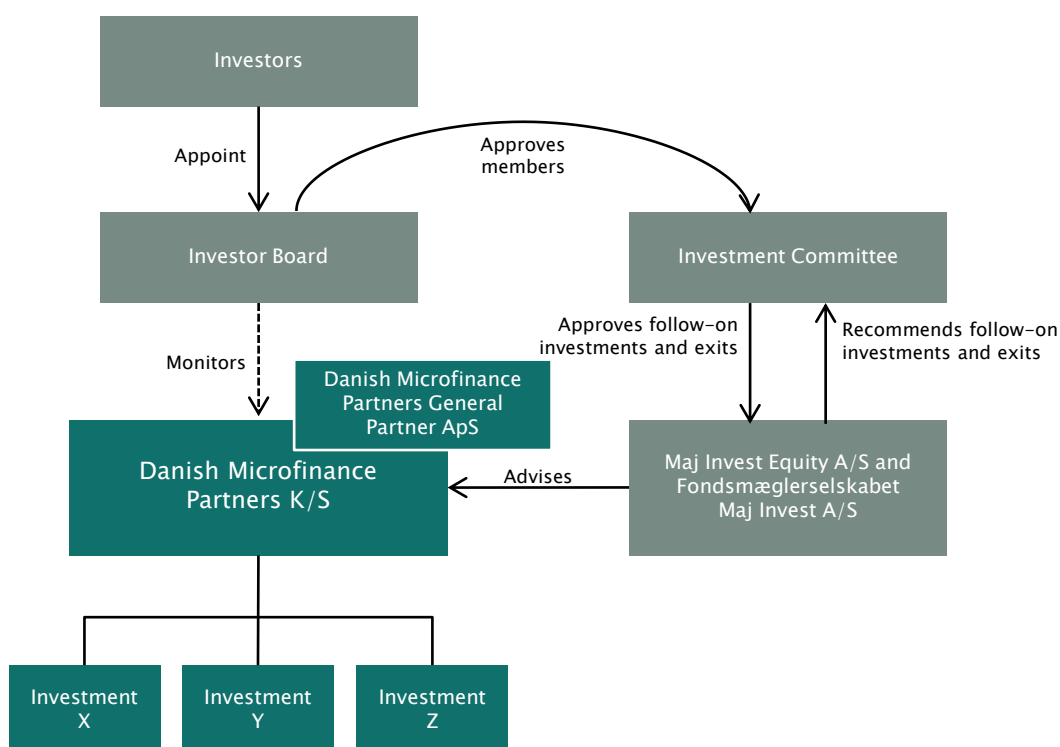

BUSINESS REVIEW

The General Partner is responsible for management and also signs for the Fund. Under a management agreement, the Manager handles all investment-related and administrative tasks for Danish Microfinance Partners. Consequently, Danish Microfinance Partners has no staff employed. The Manager has made an advisory service agreement with Maj Invest in respect of some of the investment-related tasks and an agreement with Maj Invest Holding in respect of administrative tasks.

Decision structure

The investors in Danish Microfinance Partners have set up an Investor Board with representatives appointed by the investors. The Investor Board is the investor's representative body which evaluates the overall developments in the Fund. The Investor Board approves up to three members of the Investment Committee recommended by the General Partner. Any other members of the Investment Committee are appointed by Maj Invest.

Decision structure in Danish Microfinance Partners

The Investment Committee is responsible for deciding any follow-on investments in or divestments of portfolio companies in Danish Microfinance Partners following a recommendation by Maj Invest Equity International. The Investment Committee consists of four members – a representative from PKA, two external members, with business experience,

MANAGEMENT COMMENTARY

BUSINESS REVIEW

an executive advisor and the CEO of Maj Invest. Investment Committee members do not participate in the particular company and never invest in the portfolio companies in a discretionary manner.

License as manager with the Danish FSA

The Manager has received a license as manager (in Danish: forvalter) with the Danish FSA (in Danish: Finanstilsynet) and the Manager is under financial regulation and the Danish FSA supervision.

Danish Microfinance Partners has appointed a depositary in accordance with the provisions in FAIF.

Remuneration for the financial year paid to management and staff in Maj Invest Equity A/S is disclosed in the annual report of Maj Invest Equity A/S. Information is given at Manager level. The annual report for Maj Invest Equity A/S is available on the website.

Carried interest

Danish Microfinance Partners has been established with a management fee structure which is normal in relation to the private equity market. This means that the Manager receives a fixed management fee and the General Partner receives carried interest depending on the investors' returns on their investments.

Carried interest is payable if the returns on investments adjusted for costs exceed a predetermined hurdle rate of 10% p.a. The carried interest is calculated as 20% of investor profits over the predetermined hurdle rate.

No carried interest has been paid as of 31 December 2023.

Reporting

One of the things governed by the LPA is the aspect of reporting on fund activities, its development and financial position in relation to investors. The Fund is obliged to report to its investors on a current basis:

- Quarterly reports on the financial situation, the development in individual investments and investment returns.
- Memoranda on exits.
- Annual reports.
- Investor meetings
- Annual Sustainability Reports.
- Replies to current investor queries.

MANAGEMENT COMMENTARY

BUSINESS REVIEW

The quarterly reports to investors are prepared in compliance with the Invest Europe Investor Reporting Guidelines. Investments are valued at their fair values and in accordance with the International Private Equity and Venture Capital Valuation Guidelines.

In addition to the reports specified in the LPA, a Financial Inclusion Newsletter is sent to the investors.

Market development

The Financial inclusion (FI) sector caters to the low-income individuals and small-medium businesses, their services are often more locally oriented, and historically they have been less vulnerable to global economic fluctuations and geopolitical shocks. Despite the complexities arising from events like the Israel-Hamas war, Russia's invasion of Ukraine, and US-China rivalry, the financial inclusion sector remains less affected, maintaining its resilience amid economic fragmentation and supply-chain reorganization.

Even though inflation seems to be diminishing, it is unlikely there will be substantial reductions in interest rates in the short term. This course of action has resulted in policy rates of 5.5% in the United States and 4.0% in the eurozone. However, the FI sector's performance has still not been affected as much as expected mainly due to the sustained purchasing power of the FI client group. The increased finance cost has only been partially passed to customers due to operational efficiency thanks to new technology. The average interest rates of Maj Invest Financial Inclusion (MIFIF) portfolio companies¹ have increased 3.4%pt (20.6% to 24.0%) from FY 2021/22 to FY 2022/23. Consequently, the new restrictive levels of interest rate have made capital more expensive. In the long term, anticipations of lower inflation rates and lower interest rates may potentially increase the value of the existing portfolio companies.

On a country basis, India is expected to be the fastest-growing emerging economy in 2024-28 with a real GDP growth at around 6.0% per annum². India's strong economic growth, easing inflation and narrowing current account as a result of moderating global commodity prices will support the rupee. This will, in turn, support investor appetite for Indian assets. As a result, there is a growing interest among international investors for Indian assets including those in the FI sector.

India's FI institutions' aggregate gross loan portfolio (GLP) grew by 37.7% YoY to USD 17bn compared to March 2022³. MIFIFs aggregate GLP in India grew 38.1% in the same period.

¹ The average interest rates of portfolio companies across all three Maj Invest Financial Inclusion funds

² EIU – India Country Report January 2024

³ Micrometer Report– December 2022

MANAGEMENT COMMENTARY

BUSINESS REVIEW

MIFIF has been able to contain strong portfolio growth and quality, despite disruptions to the global economy (due to monetary interventions, supply-chain disruptions, conflicts, and volatile energy prices). MIFIF's average Portfolio at Risk >30 days is 4.5% which is below the market at 8.3% as of March 2023.

FI is bolstered by strong governmental support in India since it is crucial in the country's transition to sustainable development and achieving its climate goals, as it ensures that all individuals, including those in poverty, have access to necessary financial services and resources for a sustainable transition. Non-banking financial companies' assets under management in India increased 6.5x from USD 44 billion in March 2008 to almost USD 329 billion in March 2022, and expected to increase further, indicating the importance of the sector to overall credit delivery in the economy⁴.

FI's positive effects extend to broader technology adoption, which enhances client outreach and experience, improves cost-effective lending processes, and provides convenient pathways for more individuals to be financially included. The potential opportunity to promote social impact is still significant, with more than 1.4 billion people still counted as financially excluded globally⁵.

Exits in 2023

In July 2023, Danish Microfinance Partners completed an exit of Financiera Credinka S.A. (Credinka).

Result for the year

The bottom-line for 2023 is a gain of DKK 0.3 million (against a loss in 2022 of DKK 22 million). Net realised and unrealised value adjustment of the investments amounts to DKK 0.9 million (in 2022 DKK -17 million). The unrealised value adjustments consist of DKK 2.5 million related to value adjustments, which are partly offset by a loss of DKK 1.2 million due to currency adjustments.

Development in portfolio companies in 2023

Unlisted portfolio companies

Aavishkaar Goodwell India Microfinance Development Company II Ltd (Aavishkaar)

Aavishkaar is a financial inclusion development company that provides equity finance and hands-on support to enterprises active in the financial inclusion sector in India. The investment strategy is to provide commercial long-term risk capital and active support to entrepreneurial financial inclusion institutions (MFIs) either at the early stage or growth

⁴ Finova Annual Report March 2023

⁵ World Bank Global Findex Database 2021

MANAGEMENT COMMENTARY

BUSINESS REVIEW

stage. Aavishkaar invested in six MFIs and has completed one full exit and three partial exits at the end of 2023. The fund's portfolio company, Utkarsh, was listed in July 23 and received a strong response, trading well above IPO levels. Considering the significant unrealized value and the additional time and efforts required to execute on the exit strategy, an additional extension has been approved by the fund until October 2024. Danish Microfinance Partners has a commitment of USD 3 million which has been fully drawn. Danish Microfinance Partners has an ownership interest of 10% and a seat in the Advisory Committee.

Baobab S.A.S. (Baobab)

Baobab was established in 2005 and currently operates in 8 countries (7 African countries and China) providing loans to micro, small and medium enterprises. Baobab contributes significantly to several of the Sustainable Development Goals (SDGs), in particular, No Poverty, Gender Equality, Decent Work and Economic Growth and Climate Action.

During 2023, Baobab has had stable growth in gross loan portfolio thanks to strong performance in six African countries, despite the decrease in China and currency devaluation in Nigeria. Total savings portfolio has experienced stable growth during the year. For 2023, Baobab managed to show good control of portfolio quality and generate a satisfactory profit. Baobab has continued the effort in accelerating digitalization. It has made significant progress in digital transformation of the company's core banking system, collection system, loan origination system and agency banking system. During the year, digital transactions have increased strongly, targeting to approach 50% of the transactions done outside branches. Channel expansion has developed in fast speed, with new version of mobile app, new agency banking platforms rolled out in three African countries.

Baobab will continue its strategy to become a leading digital microfinance bank in Africa and strengthen its position in the region. For further information about the company please refer to the portfolio company's homepage baobab.bz.

Capital resources

Danish Microfinance Partners has a total capital commitment of DKK 401 million. As of 31 December 2023, investors had paid DKK 384.3 million, equal to 96% of their capital commitments. The remaining capital commitment is DKK 17 million (2022: DKK 20 million). Danish Microfinance Partners' equity amounted to DKK 189 million at 31 December 2023 (2022: DKK 208 million), matching an equity ratio of 99% (2022: 99%).

Danish Microfinance Partners is able to finance follow-on investments from the time of investment and up to six months through bridge financing loans from financial institutions. A bridge loan must be repaid in connection with a capital call from investors. As of 31 December 2023, Danish Microfinance Partners has no bridge financing loans or bank loans.

MANAGEMENT COMMENTARY

BUSINESS REVIEW

Financial risks

Danish Microfinance Partners seeks to invest and create value in every portfolio company; therefore, failure to generate value represents the major risk in the underlying portfolio companies. Slow macroeconomic environment recovery, the Ukraine/Russia war, banking turmoil and higher interest rates, currency risk and the political risk in the countries of the investments can have an impact on the potential for value creation in the portfolio companies and consequently also of the performance of Danish Microfinance Partners.

The greatest impact of COVID-19 on the financial inclusion industry occurred in 2021 and about 70% of the FI institutions have either returned to a level of activity like that before the crisis or are experiencing a gradual recovery without major interruptions; still, some lagging effects would mean that the full impact has not yet been offset, however, the financial inclusion sector is still expected to resume growth. The investment team is following the situation closely.

A year after the Ukraine/Russia war, inflation expectations fuelled by elevated commodity prices along with higher interest rates due to banking turmoil were noted. The financial sector was more affected by the latter due to higher funding costs which reduced their top margins. Nevertheless, the impact has been dissipated in the portfolio companies because not all of them are deposit-taking institutions and others have diversified their revenue streams. The investment team is following the situation closely.

Uncertainties relating to recognition and measurement in the financial statements

Interests in portfolio companies are valued at their fair values, according to the description in Accounting policies. The valuation includes accounting estimates, and such valuation is therefore subject to some uncertainty.

The uncertainty is also related to the effects of the global economy, e.g., increasing inflation and interest, and effects from the conflict in Ukraine, we also refer to the section “Market development” in this annual report.

Events after the balance sheet day

There have been no events after the balance sheet day and to date that materially affect the assessment of the annual report.

FINANCIAL STATEMENTS

ACCOUNTING POLICIES

GENERAL

The annual report for Danish Microfinance Partners is prepared in accordance with the provisions of the Danish Financial Statements Act for reporting class B entities with the adoption of rules for reporting class C entities such as statement of changes in equity, certain notes and with the necessary adjustments considering that the company is a limited partnership, whose activity is private equity. Investments in portfolio companies are recognised in compliance with the International Private Equity and Venture Capital Valuation Guidelines, drawn by the IPEV Board.

In order to achieve a true and fair view of operations of the limited partnership, the presentation of the income statement has been changed compared with the reporting form shown in schedule 2 of the Danish Financial Statements Act.

Income from investments in portfolio companies is presented as an item under operating profit/loss.

With reference to the Danish Financial Statements Act § 110, the limited partnership has not prepared consolidated financial statements.

The accounting policies are the same as last year.

Recognition and measurement

All income and expenses relating to the financial year are recognised in the income statement regardless of time of payment. Negative unrealised value adjustments of investments in subsidiaries as well as unrealised value adjustments of other investments in portfolio companies are also recognised in the income statement.

Assets are recognised in the balance sheet, if, in all probability, future economic benefits will flow to the limited partnership, and the value of such assets can be measured reliably.

Liabilities are recognised in the balance sheet, if, in all probability, future economic benefits will flow out of the limited partnership, and the value of such liabilities can be measured reliably.

On initial recognition, assets and liabilities are measured at cost. Subsequently, assets and liabilities are measured as described for each item below.

Recognition and measurement of assets and liabilities have taken into account any information available after the balance sheet date but before the presentation of the financial statements, either affirming or not affirming conditions existing on the balance sheet date.

FINANCIAL STATEMENTS

ACCOUNTING POLICIES

Foreign currency translation

Transactions in foreign currencies are translated into Danish kroner using the exchange rates applicable on the transaction date. Assets and liabilities in foreign currencies are translated into Danish kroner using the rates on the balance sheet date.

INCOME STATEMENT

Income from investments in portfolio companies

Realised gains/losses on investments, negative unrealised value adjustments of investments in subsidiaries and unrealised value adjustments of other investments in portfolio companies are recognised in the income statement. Dividends, interests and other income received from portfolio companies as well as carried interest are also recognised as "Income from investments in portfolio companies".

Administrative expenses

Administrative expenses mainly consist of management fees, broken deal costs, depositary fee and other administrative expenses.

Financial income and expenses

Financial income and expenses include interest on bank deposits, interest on bridge loans, provision for credit facility and interest on loans provided by the general partner "Danish Microfinance Partners General Partner ApS".

Tax

Danish Microfinance Partners is a Danish limited partnership. The limited partnership is transparent for tax purposes and taxes are levied on the individual investor in proportion to their shares in the partnership. Consequently, no provisions for tax have been made in the financial statements. However, tax withheld on the payment of dividends and on gains from sale of shares are recognised in the income statement under "Withholding tax".

BALANCE SHEET

ASSETS

Investments in portfolio companies

On initial recognition, investments in subsidiaries and other investments in portfolio companies are measured at cost, with the addition of transaction costs.

On subsequent recognition, investments in subsidiaries are measured at fair value and positive unrealised value adjustments are made directly at the equity. Negative unrealised value adjustments are recognised in the income statement. Reversals of positive unrealised value adjustments are made directly at the equity.

FINANCIAL STATEMENTS

ACCOUNTING POLICIES

On subsequent recognition, other investments in portfolio companies are measured at fair value and any value adjustments are recognised in the income statement.

The fair value of investments in unquoted portfolio companies are measured at the most recent market price for a limited period following the date of the relevant transaction, for instance in the form of an expansion of capital or partial sale or through the use of traditional valuation methods for financial inclusion institutions, e.g. P/B multiples.

The fair value of investments in quoted companies will for actively traded (quoted) investments be available market prices. If shares are not actively traded, investments will be measured as investments in unquoted portfolio companies.

Receivables

Other receivables are measured at the lower of amortised cost or net realisable value, which usually corresponds to the nominal value less write-downs for bad debts.

Write-downs for bad debts are determined on the basis of an assessment of the individual receivables.

Prepayments

Prepayments recognised under assets consist of prepaid management fees.

Cash

Cash includes deposits with financial institutions.

LIABILITIES

Financial liabilities

Bank loans regarding bridge financing are measured at amortised cost, corresponding to the outstanding debt.

Other liabilities are measured at amortised cost, usually corresponding to the nominal value.

NOTE 4 Investments in subsidiaries		
In case, no unrealised fair value adjustments were recognised directly in equity of investments in subsidiaries, the value of investments in subsidiaries would have been as the following:		
	89,442	89,442

NOTE 5 Other investments

Other investments are minority investments with an ownership interest less than 20% which are valued according to the fair value measurements in Level 3 of the fair value hierarchy.

The fair market value for each portfolio company is primarily measured based on a P/B multiple, which is the common method for financial inclusion institutions. The multiples are determined using the following criterias: the company's profitability and growth potential, growth in equity, actual return on equity, the company's and management's ability to accomplish the growth strategy, but also the country's economic and political conditions and legal framework.

Investment in fund-of-fund is measured based on latest Net Asset Value reported.

NOTE 6 Debt to general partner

Debt to general partner is an installment-free loan to Danish Microfinance Partners for the full term of Danish Microfinance Partners.

NOTE 7 Total long-term liabilities

Total long-term liabilities fall due for payment within five years.

FINANCIAL STATEMENTS

OTHER INFORMATION – SUPPLEMENTARY REPORT IN ACCORDANCE WITH SFDR (EU)

ANNEX IV

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?	
<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
<input type="checkbox"/> it made sustainable investments with an environmental objective : __pct. <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> it promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of __ pct. sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> it made sustainable investments with a social objective : __pct.	<input checked="" type="checkbox"/> promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund's focus on financial inclusion contributes to driving economic and social development through the provision of access to financial resources, contributing towards poverty reduction and promoting environmental and social characteristics which is directly aligned with Sustainable Development Goals (SDGs): 1, 5, and 8. The Fund meets all environmental and social characteristics promoted, as all companies

in the Fund contributed to at least one of the promoted SDGs. No reference benchmark was used.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The sustainability indicators' performance is presented below (as an average of four data points for year 2023). Sustainability indicators are not covered by the audit statement.

SDG	Indicator	2023
	# of clients served via Fund's portfolio companies	8.3 million
	% of income generating loans of total loan portfolio	67
	% of female clients served via Fund's portfolio companies	66
	% of female board members in portfolio companies:	14
	% of female employees in portfolio companies	16
	# of employees in portfolio companies	31,913
	% of loans to SMEs of total portfolio	24

and compared to previous periods?

Indicator	2023	2022
# of clients served via Fund's portfolio companies	8.3 million	6.6 million
% of income generating loans of total loan portfolio	67	N/A
% of female clients served via Fund's portfolio companies	66	77
% of female board members in portfolio companies:	14	15

% of female employees in portfolio companies	16	18
# of employees in portfolio companies	31,913	25,846
% of loans to SMEs of total portfolio	24	20

What were the objectives of the sustainable investments that the financial products partially made and how did the sustainable investment contribute to such objectives?

The Fund did not make any sustainable investments.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Due to lack of data this financial product does not consider principal adverse impacts on sustainability factors.

What were the top investments of this financial product?

2023:

Name	Country	Sector	Avg. Weight
Baobab S.A.S	Africa/China	Financials	82%

2022:

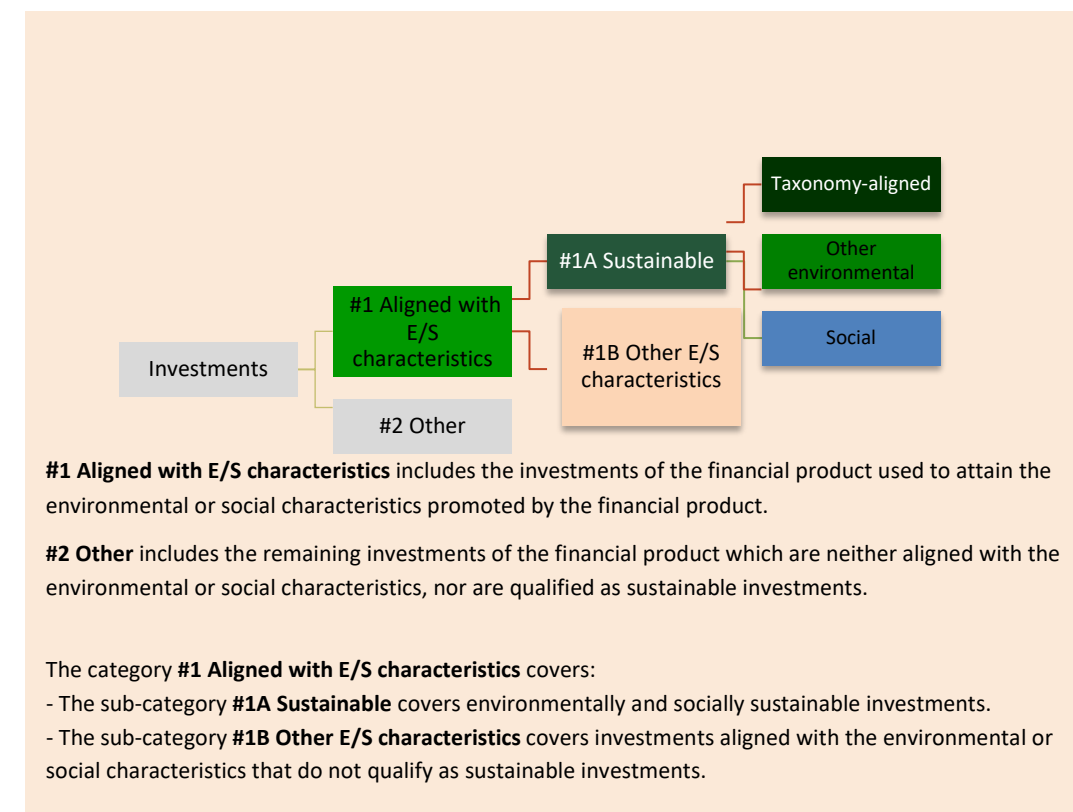

Name	Country	Sector	Avg. Weight
Baobab S.A.S	Africa/China	Financials	80%

What was the proportion of sustainability-related investments?

100% of the Fund's investments in 2023 was in line with sustainability-related investments.

What was the asset allocation?

100% of the investments in the Fund was aligned with the environmental and social characteristics promoted by the Fund, as described earlier.

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 2023

Asset allocation describes the share of investments in specific assets.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

Turnover reflecting the share of revenue from green activities of investee companies.

Capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

Operational expenditure (OpEx) reflecting green operational activities of investee companies.

In which economic sectors were the investments made?

The Fund is invested in one sector:

- Financials (100%)

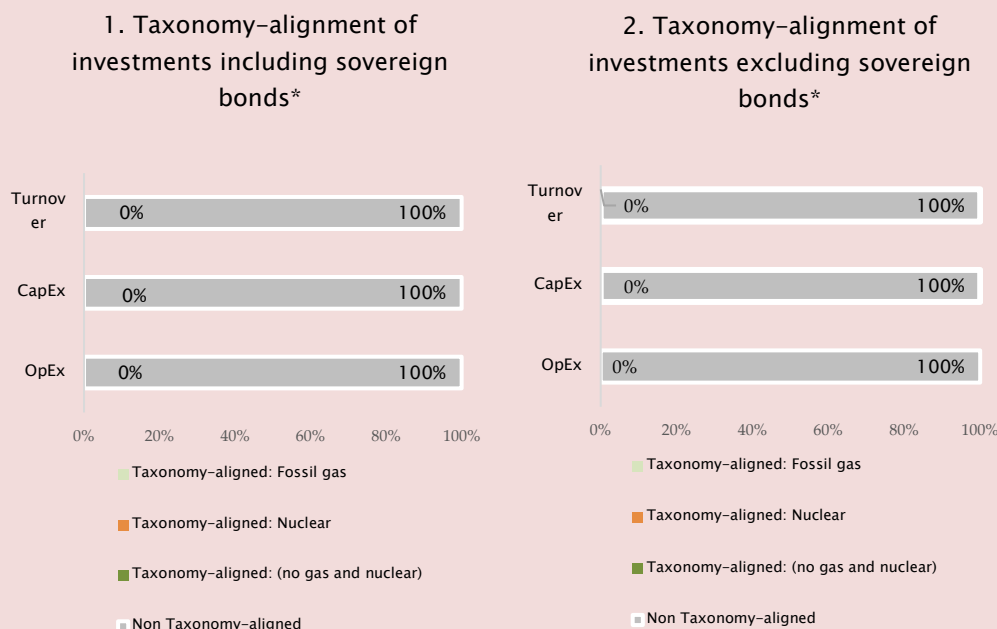

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

In 2023, 0% of the investments were sustainable with an environmental objective aligned with the EU Taxonomy. This number is not covered by the audit statement.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes
- In fossil gas In nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated regulation (EU) 2022/1214.

What was the share of investments made in transitional and enabling activities?

In 2023, 0% of investments were made in transitional and enabling activities.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

No investments were made in alignment with EU–Taxonomy. This number is not covered by the audit statement.

2022	2023
0%	0%

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

0%.

What was the share of socially sustainable investments?

0%.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Not applicable.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund has as its objective to be aligned with the International Finance Corporation’s (IFCs) Policy on Social and Environmental Sustainability. The Fund has developed performance standards in the form of ESG systems, to adhere to during the pre-investment due-diligence, and during post post-investment monitoring of investment. The due diligence process also includes an assessment of potential portfolio companies past track record, the types of products offered, profiles of groups formed by the microfinance institutions (MFI), purpose of borrowing, the Fund might also carry out a primary verification by visiting the field and meet with a sample of borrowers, to assess the activities they are involved in and their contribution to the SDGs. In the finalization phase, the Fund requires the MFIs to abide by an overarching code of conduct including compliance with IFCs Micro “Finance and Exclusion List”, Anti-Money Laundering Requirements”, “Anti-Corruption Guidelines”, as well as annual requirements on social performance. During the ownership period, the Fund works together with portfolio companies on establishing and developing the companies’ ESG approach and strategy.

How did this financial product perform compared to the reference benchmark?

This financial product did not use a reference benchmark.

How does the reference benchmark differ from a broad market index?

Not applicable.

How did this financial product perform regarding the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

How did this financial product perform compared with the reference benchmark?

Not applicable.

How did this financial product perform compared with the broad market index?

Not applicable.
